Anti-Ragging Committee Progress Report

The Anti-Ragging Committee was formed to address and prevent ragging incidents within the institution. The committee's objective is to ensure a safe and secure environment for all students, particularly freshers, by promoting awareness, prevention strategies, and effective monitoring.

Key Objectives

- To prevent ragging activities within the campus.
- To create awareness about the harmful effects of ragging among students, faculty, and staff.
- To act swiftly and efficiently in case of any ragging-related complaints.
- To ensure timely resolution of complaints and take corrective actions.
- To promote a positive and supportive environment for all students.

Activities and Measures Undertaken

Awareness Campaigns

Orientation Programs: Conducted during the beginning of the academic year to inform new students about the consequences of ragging and institutional policies.

Posters and Banners: Displayed across the campus to raise awareness on anti-ragging laws, committee contacts and helplines.

Workshops and Seminars: Organized for both students and faculty to educate them on the importance of maintaining a ragging-free environment. The Anti-Ragging week was celebrated within the campus as enunciated by University Grant Commission (UGC)

Social Media Outreach: Regular posts and awareness campaigns on the institution's official social media platforms.

Monitoring and Surveillance

Surprise Inspections

Anti-Ragging Contact Numbers: A dedicated Anti-Ragging Committee was made available to students for anonymous reporting of ragging incidents.

Complaints and Grievances Handling

Complaint Redressal Mechanism: A clear and transparent system was put in place for students to file complaints related to ragging. The system allows for both written and anonymous complaints.

Outcome and Impact

Zero Tolerance Policy towards Ragging.

Student Feedback: Positive feedback from students regarding the effectiveness of awareness programs and the presence of surveillance mechanisms.

Improved Sense of Security: Freshers reported feeling safer and more comfortable within the campus environment.

Future Plans

Strengthening Awareness Programs: Continue to expand outreach programs, especially focusing on rural and marginalized student groups.

Better Engagement with Parents: Involve parents more actively in awareness programs and ensure they are informed of the measures in place.

Enhanced Training for Staff: More training for faculty and staff to identify signs of ragging and address them proactively.

Reinforce Peer Support Systems: Encourage senior students to take a more active role in mentoring freshers to prevent ragging.

Conclusion

The Anti-Ragging Committee has made significant progress in maintaining a safe and supportive environment for all students. The measures implemented have resulted in a noticeable reduction in incidents of ragging, with the institution's commitment to zero tolerance toward such behaviour becoming evident. Continued vigilance, awareness, and proactive engagement will be essential to ensure a lasting impact.
